TILLMOR
ORGANIC WEED CONTROL SOLUTIONS

IN-ROW WEEDING

Cultivate the most difficult 6 inches of space in your rows with precise, flexible tooling.

ADAPTABLE

Mount Tilmor tools directly to your existing cultivator, saving you time and money up-front.

INCREASE YIELD

Less weed pressure throughout the entire growing cycle results in higher yields.

FINGER WEEDING

IN-ROW WEED CONTROL

IN-ROW CULTIVATION

- The polyurethane fingers turn in-between the crop row, driven by the steel fingers, dislodging small weeds in the crop row.
- Ideal for established crops like corn, beans, grains, cotton, vegetables, and more.

EASY TO MOUNT

- Mount easily on almost all cultivators
- Large Trailing Arm is a complete bolt-on unit for 4" to 7" cultivators
- Flex-tines connect fingers to any 2" tube
- Independent finger weeder parts available for custom designs

REDUCE LABOR & MAINTENANCE

- Sealed-bearing construction reduces maintenance
- Control weeds throughout the season and reduce the need for hand weeding before harvest

CHAFFIN FARMS

located in
ITHICA, MI

Chaffin Farms is a row crop farm with 1,600 organic acres and 16,000 conventional acres in Ithaca, MI. All of the organic farmland is maintained by mechanical weed control including the Tilmor torsion weeders.

Fred Woodcock is the Organic Manager at Chaffin Farms. The International Cultivator setup shown on this page is a 25-row setup with narrow front sweeps followed by torsion weeders and nine-inch sweeps. The unit has been working so well for the farm that they ordered enough to outfit three more cultivators with the identical set-up. Fred said he wouldn't run any of his cultivators without the Torsion Weeder.

**“ I won't run any
of my cultivators
without the Torsion
Weeder. ”**

TORSION WEEDING

IN-ROW WEED CONTROL

IN-ROW CULTIVATION

- The torsion wire vibrates just underneath the surface pulling out cotyledon stage weeds
- Wire disturbs soil around the base of the crop
- Ideal for established crops, like corn, beans, grains, cotton, vegetables, and more.

FEATURES

- Adaptable to most cultivators
- 14 and 17 Inch wires available
- Multiple adjustments for crops at different stages

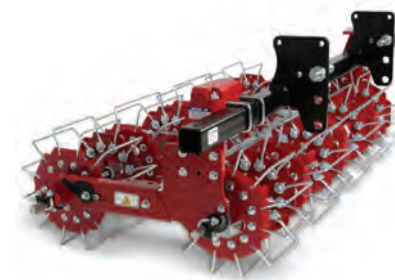

ECONOMICAL & SIMPLE WEEDING SOLUTION

BASKET WEEDING

BETWEEN ROW WEED CONTROL

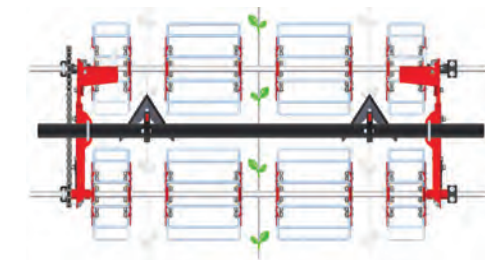

BASKET WEEDERS

- Used for between row weeding, and ideal for early season cultivation
- Put baskets together to prepare a stale seedbed
- Basket Wires are direct replacements for Budding Basket Weeder
- Spyders can replace front baskets for harder, rockier soil

MIDMOUNT KIT

- Add a 1.5 inch toolbar to stalebed or cultivate using A-blades or S-tines.

CUSTOMIZE & REPLACE CULTIVATION EQUIPMENT

FINGER WEEDER REPLACEMENTS

- Multiple size and hardness options
- Direct replacement for Steketee, Garford and Kult Kress finger weeders

EINBOCK TINE REPLACEMENTS

- 7/600mm, 120 Degree
- Uproot weeds in the 'white thread' stage
- 5ft and 6.5ft sections also available for blind cultivation on the rear of any 3 pt. or Tilmor tractor

A-BLADES & CULTIVATION KNIVES

- Large variety of knife sizes and shapes
- From 4 to 10 inches of precise, shallow cultivation

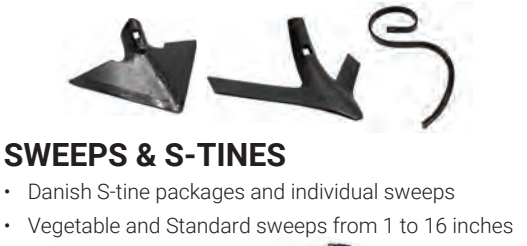

FLEX TINES

- Allows independent tool movement for flexibility in uneven or rocky conditions

TOOLBARS

- Basket weeders and other cultivation tools can mount onto Farmall Cubs, Kubota L245s, Allis Gs, and other 3 pt hitch tractors

SWEEPS & S-TINES

- Danish S-tine packages and individual sweeps
- Vegetable and Standard sweeps from 1 to 16 inches

SPYDERS & DISCS

- Bezeride style cultivator mulches, aerates or hills soil
- Heavy Duty and Economy Hiller Discs available

TRUSTED FARMING SOLUTIONS

TILMOR 520 TRACTOR

- High visibility, adaptable, & efficient design
- Specializes in precision cultivation

PLASTIC MULCH SOLUTIONS

- Plastic Lifter and Winder
- Edge of Plastic Finger Weeder
- Plastic Mulch Layer

VINEYARD WEEDER

- Weed control in vineyards, orchards and nurseries
- Variety of vineyard toolbars available

WIZARD VACUUM PLANTERS

- Vacuum precision planters

SEEDERS

- Choose from push or mountable seeders of multiple brands, including Jang
- Small to large size seed planters available

COMPOST/FERTILIZER SPREADERS

- Spread compost, wood chips, sand & other materials

ELECTRIC PICKING ASSISTANT

- Harvest, weed, plant, and prune without bending over
